During the last decade, Islamic Finance has grown constantly at the remarkable rate of 10-15% per year. At present, with over 600 Islamic financial institutions in the world and assets estimated at over 2 trillion USD, the Islamic financial market constitutes an attractive area of investment for European bankers and economic operators. At the same time, it represents a fascinating topic of study for researchers and students, involving a variety of issues, from comparative law and risk management to alternative techniques of financial intermediation in the global economy.

### PROGRAMME

The Summer School offers a comprehensive investigation of Islamic economics and law related to the financial sector, with peculiar attention to the emergence of an economic and legal pluralism in Europe.

The programme covers two full-time days of face-to-face teaching. The first day focuses on the economics of Islamic Finance, with the contribution of the Islamic Research and Training Institute (IRTI) - Islamic Development Bank. The second concentrates on aspects of legal pluralism and current evolution of Islamic Finance in Europe: in this context, the Summer School is enriched by the participation of ASSAIF, ERM Academy and by a discussion panel with Norton Rose Group as a leading international legal practice in the sector.

### LOCATION

The Summer School takes place in the centre of Rome, at the **Istituto Luigi Sturzo**, Via delle Coppelle 35, near the Pantheon and Navona Square.

### LANGUAGE

All the lessons and the discussion panel are held in **English**. No translation service is provided.

### CERTIFICATE OF ATTENDANCE & CREDITS

All the participants will receive a certificate of attendance issued by CEIS - Tor Vergata. Under demand, the Summer School will also provide students with **3 ECTS**, after a 10 page paper is submitted.
